The Bushfire Book: How to Be Aware and Prepare

by Polly Marsden and Illustrated by Chris Nixon

ISBN: 9780734420077 SCIS: 1980409

An accessible and reassuring picture book that teaches children what they need to know about bushfires so they can understand what's happening and be smart and prepared, not scared. Australia is a big country with all sorts of weather. And sometimes extreme weather like bushfires. Bushfires can make a real mess of things. The air fills with smoke. The skies turn red. Ash falls. Precious things burn. But we don't need to be scared, we just need to know all about bushfires and prepare for them. This book will help you understand what causes bushfires, introduce you to all the clever people who are keeping an eye on them, and teach you how to be prepared and not scared. A practical and reassuring book for children to help them understand bushfires and what action they can take to feel less anxious and more prepared as Australia faces longer and more intense bushfire seasons.

Bushfires In Australia

by John Lesley

ISBN: 9781922322463 SCIS: 1981241

Thousands of years ago, Indigenous Australians developed ways of managing bushfires, so that the landscapes they cared for would not suffer catastrophic destruction. Today, firefighters also undertake hazard reduction burns to keep areas safe from monster bushfires.

Bushfires

It is unusual for us to include two books on the same topic in one selection, however, given the widespread devastation caused by recent bushfires, we hope that the two titles included in your package this month will be valuable resources for your school, especially leading into summer this year.

STEM is Everywhere

There are four titles in this great new series. *Electricity and Modern Technology* is included in your package this month, and you will be receiving *A World Full of Materials* in your October package. If you would like to order the remaining two titles: *Light, Rainbows and Lasers* and *Turn Up The Heat*, please send an email to sam@lamontbooks.com.au by the **20th September**. The RRP is \$28.99 and you can purchase them for the discounted price of \$23.20.

STEM is Everywhere: Electricity and Modern Technology

by John Lesley

ISBN: 9781925860856 SCIS: 1981305

The existence of the whole universe including us and our daily lives can be described with the scientific facts that make up the topics in STEM. In this series you will find out how easy STEM is to understand and discover how you can see it in action every day.

The Forest in the Tree: How Fungi Shape the Earth

by Ailsa Wild, Aviva Reed, Briony Barr and Gregory Crocetti

ISBN: 9781486313310 SCIS: 1981256

This is a story about trees and fungi connected through a 'wood wide web' — told by one tiny fungal spore. A little fungus meets a baby cacao tree and they learn to feed each other. They cooperate with a forest of plants and a metropolis of microbes in the soil. But when drought strikes can they work together to survive? The fourth book in the Small Friends Books series, this science-adventure story explores the Earth-shaping partnerships between plants, fungi and bacteria.
