***Tasmanian Devil***

by Claire Saxby & Illustrated by Max Hamilton

ISBN: 9781760652418 SCIS: 5405441

An engaging addition to the *Nature Storybooks* series, *Tasmanian Devil* showcases different elements of the habitat, behaviours, and day to day life of one of Australia's most famous marsupials.

In *Tasmanian Devil* award-winning author Claire Saxby and talented artist Max Hamilton tell the story of two imps, or young devils. As the book progresses the brother and sister grow and venture further from the den, exploring more and more of their world in this stunning *Nature Storybook*.

***Australia's Incredible Insects***

by Jessa Thurman

ISBN: 9781922388780 SCIS: 5405450

Explore modern Australian insects, non-insect hexapods and life cycles. Their importance of insects to the ecosystems of our world, and to our own survival, cannot be overstated. But it can be challenging to relate to them as fellow living beings when their bodies structure and function are so dramatically different from our own. This guide will demystify the way that insects live, from the fine detail of their internal processes to the way they co-exist with all other forms of life.

***Get Me Out of Here! Foolish and Fearless Convict Escapes***

by Pauline Deeves & Illustrated by Brent Wilson

ISBN: 9781760526993 SCIS: 5405299

Full of crims, crooks and rascally runaways, this fun and light-hearted non-fiction title is a colourful celebration of our convict past.

Meet the convicts behind Australia's most rascally, dastardly prison escapes. Gifted geniuses or total goofballs? You be the judge!

Featuring Moondyne Joe, Mary Bryant, and a guy who put on a kangaroo skin and hopped away (literally), this fun and engaging collection brings our country's early colonial past to life.

***Oceans of Plastic : Understanding and Solving a Pollution Problem***

by Tracey Gray

ISBN: 9781486312573 SCIS: 5405455

Our oceans are amazing! They are filled with wonderful sea creatures and are essential for a healthy planet. But it's now estimated that there are more pieces of plastic in the ocean than visible stars in the Milky Way. So how can we stop plastic from our homes and cities from ending up floating in oceans far away? By becoming ocean change-makers! *Oceans of Plastic* explores how ocean systems and swirling currents bring plastics together into massive ocean garbage patches. It also uncovers the floating world of the 'plastisphere' – a mini community of microbes living on ocean plastics – and explains how plastic breaks up, not down, and can even end up on your dinner plate! *Oceans of Plastic* is packed with great ideas and simple changes that you can make to help our oceans. Become an ocean change-maker in your home, school or community, and inspire others to join you in protecting the future of our oceans.
